The Israeli Strategic Planning depend upon distant duration strategy, able to transport the conflict from its direct dimension like war to indirect one such as Economical, Political, Sociological field to achieved its coals in flexible ways by exploitation weakness points inside their enemies, & employment power points in themselves.

The Zionism movement and Israel attempt to concern in the future & its elements. Hence, submission these elements to the Israeli thinking, and the Israeli strategy always drawing margin of prospective movement in any time.

So, the importance of study including that Israeli depend on strategy which is prospective goals, flexible ways, variable, forms and fixed aims try to weak the Arab states, In return for protect Israeli security by create a new events in its environment because future never offering in silver dish.
